bundle clean

`bundle-clean` - Cleans up unused gems in your bundler directory

```
bundle clean [--dry-run] [--force]
```

Description

This command will remove all unused gems in your bundler directory. This is useful when you have made many changes to your gem dependencies.

Options

`--dry-run`

Print the changes, but do not clean the unused gems.

`--force`

Force a clean even if `--path` is not set.

This document is obsolete. [See the latest version of this document](#) if you caught an error or noticed something was missing, it may be fixed there.
